partners for active living
making an active life a way of life.

2013 ANNUAL REPORT
**Mission:**

Partners for Active Living transforms Spartanburg County into a vibrant, healthy, connected community where we live and grow.

**Vision:**

In Spartanburg, active living comes naturally. It is fun, easy, and safe because we are connected to our community, to each other, and to nature. We utilize our vast natural resources, waterways, trails, and parks routinely. We walk through our neighborhoods and play with our families in our front yards, and we bike to work and school. We embrace our wonderful quality of life. We get out, and we go. We are healthy.

---

dear friends:

2013 was a banner year for active living in Spartanburg! Thank you for your time, passion, and investment in creating a healthier and more active community. Without your support, our community would not be as vibrant.

Included in the Partners for Active Living second annual report, you will find highlights outlined through our focus areas:

- Trail development
- Bike Town Spartanburg
- Childhood obesity prevention

In addition to celebrating our key ‘wins’ over the last year, below is a brief preview of what is planned for 2014. Five projects that will be impactful to the health of our community and our organization:

- A park plan for the seven acre lot on the Mary Black Foundation (MBF) Rail Trail near Forest Avenue
- Healthy Schools Summit in June
- The launch of the 5th B-cycle station at the Healthy Food Hub
- Connecting the MBF Rail Trail into downtown Spartanburg
- An updated Partners for Active Living website and brand

We look forward to briefing you on our progress throughout the coming year. We appreciate your partnership and support in creating a healthier Spartanburg.

Partners Active Living is dependent on donations to continue our work. We hope you will consider giving ‘the gift of health’ so that we can continue advocating for a healthier, more active community.

Forward!

trail development

Did you know that Spartanburg County currently has over 100 miles of trails? It may not feel this way because the trails are not adjoined to one another. In early fall 2012, Partners for Active Living hired a consulting firm to create a greenways and trails plan focused on closing gaps in our system. The plan, funded by the City of Spartanburg, Spartanburg County, and the Healthy South Carolina Initiative, includes 13 priority projects.

The development of the plan came through the convening of a variety of interested stakeholders. Connecting the Mary Black Foundation Rail Trail to downtown on one end and to Glendale on the other, better connecting the Westside and the Eastside, and bringing the Boiling Springs area into the trails system are included as important pieces to make biking and walking safer and easier throughout the county.

mary black foundation rail trail and wadsworth trail

From 2009 – 2012, PAL commissioned a report to formally assess the use of the Mary Black Foundation Rail Trail and Wadsworth Trail. The study documents perceptions about the facilities.

Results for MBF Rail Trail include:

- From 2006-2009, 24,820 users annually
- In 2012, 65,449 users annually, resulting in a 163% increase in trail users
  - Even split between male and female users
  - 11% children and teens, 75% adults, 14% seniors
  - 30% were non-white
  - Winter and spring are the most popular times of use
  - Maintenance and condition of the Rail Trail are considered good

Results for the Wadsworth Trail include:

- In 2010, approximately 6,615 users
- In 2012, approximately 7,665, resulting in a 16% increase in trail users
  - Even split between male and female users
  - 16% children and teens, 66% adults, 18% seniors
  - 11% were non-white: 843 users
  - Fall and spring are the most popular times of use

Over the last three years, PAL and many community partners planned events, created marketing campaigns, and advocated for infrastructure improvements along both trails, which aided in the increased use. A few of the efforts included:

- A dog park, water fountain, Bcycles, and wayfinding signs on the MBF Rail Trail
- Trains on Trail scavenger hunt presented by Women Giving of Spartanburg
- “I love the Wadsworth Trail” clean up events
- Creation of Friends of the MBF Rail Trail group and logo
- Mailing of a map of the Wadsworth Trail to 6,300 residents living close to the Trail

partnership is the name of the game

As recommended in the Spartanburg Greenways and Trails Plan, two formal groups have been established to oversee trail development and improvement throughout our community.

The first is a partnership between the groups that are building, maintaining, and programming trails. Members include Tyger River Foundation, Westside Neighborhood Association, and Palmetto Conservation Foundation. This group will coordinate resources, signage, system connections, and volunteers.

The second is a trails advisory committee made up of trail users, elected officials, and community leaders. This group advocates for funding, meets with property owners near trails, and helps prioritize projects.

To further this process and to help ensure its implementation, Spartanburg County and the City of Spartanburg have helped fund a trails coordinator position at Partners for Active Living. With staff dedicated to trail development, coordinating the various moving parts involved will be more effective.
childhood obesity prevention

Since 2009, Partners for Active Living has made childhood obesity prevention a top focus.

Childhood obesity rates have tripled in the past 40 years. The epidemic is related to the fact that most communities do not include a physical environment that supports healthy physical activity.

One national best practice that addresses the lack of physical activity is now gaining traction in South Carolina, opening school playgrounds and athletic facilities to the community during non-school hours, like weekends and holidays. This “joint use” or “shared use” agreement increases the number of places to play for children and families.

Partners for Active Living facilitated city and school district conversations to make Spartanburg the first community in the state to sign an official agreement, opening facilities in District 6 and District 7 schools in the City of Spartanburg. The City Parks and Recreation department has provided some programming at the parks, and PAL will continue to lead and implement best practice policies and places to enhance opportunities for all children, leading to physical activity and healthier lives.

goodforyouspartanburg.com

Good for You Spartanburg is a branding campaign created by the Spartanburg Childhood Obesity Taskforce as part of the fight to reduce childhood obesity by 2018. The mission of Good for You Spartanburg is to capture the broad-based grassroots, nonprofit, institutional, and governmental support for the development of a healthy Spartanburg County. The campaign features an interactive, comprehensive website (www.goodforyouspartanburg.org), partnership program, and staff support provided by Partners for Active Living.

Launched in January 2013, Good for You Spartanburg is an online guide to encourage eating healthy and moving more in Spartanburg County. It equips worksites, places of worship, schools, and others with resources to be healthier.

Visitors to the website will find helpful information on the prevention of chronic diseases such as obesity, diabetes, heart disease, and stroke. The website also features a Healthy Living Events Calendar, Healthy Living Places/Facilities database, and the Good for You Partnership Program. Good for You partners with 28 organizations including restaurants, hospitals, preschools, and others.
thank you to our donors and supporters!

Meet the McEnroe family. This awesome, active family supports PAL. And like so many, they are the key to our success.

“We are so lucky to have Partners for Active Living in Spartanburg. Our family loves to be outside and active. PAL’s programs like Walk and Bike to School, Bike Town, and BCycle help get our community moving. We live near the Mary Black Foundation Rail Trail. We count the red BCycle bikes going past. Seeing all of those active people is a real motivator. Thank you PAL for getting Spartanburg moving!” Sean McEnroe

Donations include those given to PAL and our programs: B-cycle, Hub Cycle, Friends of the Mary Black Rail Trail, Spartanburg Regional Criterium, and Turkey Day 8K.

bike town spartanburg - more bicycling and walking

hub cycle:

Since 2007 dozens of bicycles have celebrated their second lease on life with Partners for Active Living’s community bicycle program, Hub Cycle. In the last 6 years, there have been over 700 rentals of one of our refurbished bicycles. Through Hub Cycle, Partners for Active Living increases the availability of and access to bicycles in Spartanburg.

For a refundable $15 deposit, a renter receives a bike, lock, and helmet for 3 to 6 months. Borrowers often use the bicycles for varying purposes like transportation, recreation and leisure but all lead to increased activity levels. By providing these bicycles, Partners for Active Living increases accessibility to an affordable option for physical activity and transportation.

Almost 40% of our users reported using their Hub Cycle bicycle for transportation,

57% of users said that while renting a Hub Cycle bicycle, their physical activity level had increased,

45% of renters used the bike 5 or more times per week,

Almost 40% said they used the bike for 30 or more minutes each time they rode, which meets the Centers for Disease Controls recommendations for adult moderate to vigorous physical activity per day,

70% of users make under the median income level for Spartanburg County and 51% make under $20,000 in household income.

2012-2013 hub cycle by the numbers

Partners for Active Living runs the Southeast’s first bicycle sharing system. In April of 2013, Spartanburg B-cycle expanded from two to four stations. The two new stations are on the Converse College and Wofford Colleges campuses. This expansion was made possible by the generous contributions of Spartanburg Regional Foundation, JM Smith Foundation, private donors, and both Colleges.

“The B-cycle program is a wonderful avenue for students to get involved within the community and within their schools as well. By bringing this to the college communities you bring the opportunity for physical activity and involvement in the Spartanburg community!”

Briana Bateman, Converse College Class of 2014, SGA President 2013-2014

“As a Wofford student, I feel that the B-Cycle program opens a lot of doors, both on campus and out in the Spartanburg community. It’s been a great opportunity to explore and live a more active lifestyle.”

Christopher Novak, Campus Union President, Wofford College ’14
